

New ASTM Anti-tip Standards

In May of 2009 ASTM, which is monitored by the Consumer Products Safety Commission, updated their anti-tip standards with the new ASTM F2057-09 requirements. In Keeping with these new standards Kemp Hardware's anti-tip program is current with these new requirements.

Manufactures of furniture are not required by law within the V-Star program of the CPSC manufactures not supplying tip over restraints are not compliant with the standards.

USA Price		<u>1</u>	<u>100</u>	<u>500</u>	<u>1,000</u>	<u>2,500</u>	<u>5,000</u>	<u>10,000</u>
